

# Tommy the Cat Plays Patterson Mystery Role

(Continued from Page One) Lieut. Col. Philip Belson and his family, who are here from England to stay until December.

The Belsons took Tommy in and cared for him until the cat nipped one of the children on a finger.

Mrs. Belson asked Mrs. Sherwin if she knew whether the Pattersons had Tommy vaccinated against rabies. Mrs. Sherwin said she did not know, and suggested Mrs. Belson contact the D. L. Cady Animal Hospital at 2101 Texas street.

**Still at Hospital**

"Dr. Cady knows all about Tommy," Mrs. Sherwin told Mrs. Belson. "This is the only time I ever have known the Pattersons to go away without leaving Tommy at the Cady hospital."

The Cady Animal Hospital took charge of Tommy, where he was practically at home, having been there dozens of times. He is still there.

Mrs. Sherwin said "Mr. and Mrs. Patterson are the finest neighbors anyone could want. They are friendly, neighborly and kind-hearted."

She said the Pattersons had many friends who visited at the Patterson home. She said the last car she recalls in front of the Patterson home was a foreign-made car, but she has no idea whose it was.

Mr. and Mrs. Patterson have not been seen by anyone in El Paso since late in the day of March 5, so far as has been disclosed.

**OFFICE ORCHID**—Mrs. Barbara Orr, secretary in the Inventory Control Dept. of El Paso Gas Products was selected Office Orchid by fellow employes.

# Daniel Wants Senate Okay Of Lobby Bill

By ERNEST BAILEY  
Wash.-Post Austin Correspondent

AUSTIN, Nov. 1. — Governor Price Daniel, obviously disgusted at the Senate failure to pass a lobbyist registration bill, said:

"As of today I would be glad to see any lobbyist registration bill pass the Senate."

If favorable action is taken by the Senate and House Monday, he will then propose that the Legislature make it possible to close schools occupied by Federal troops and direct the attorney general to defend school districts involved in integration lawsuits.

**One Objection**

Governor Daniel said the Senate lobbyist registration bill meets his recommendations "except the reporting section is not as complete as I recommended."

The Senate bill requires persons registering as lobbyists to report expenditures of more than \$50 a year. But they need not be itemized. Personal, living and office expenditures are excluded.

The Senate, by a 25-2 majority, skipped over the lobbyist registration bill which was first on the calendar to approve a water planning measure different from that offered by the Governor. It now goes to the House.

The House gave final passage to a water bill yesterday after three days of wrangling by a 124-9 vote.

Governor Daniel said he felt that the water planning and lobbyist registration measures were the major points of his five-point program submitted to the Legislature for the 30-day special session beginning Oct. 14.

The Governor had asked for an appropriation of \$1 million for the Planning Division. The House bill carries a total of \$927,000 and the Senate bill only \$800,000.

Governor Daniel said he favored the amount in the House bill.

# Plan Instruction On Vote Machines

Instruction classes for election judges and clerks on operation of voting machines will be held by Fred Valdez, custodian of voting machines, at 2 p. m. Saturday at the Courthouse.

Mr. Valdez will explain how to set up the machines for voting on the three constitutional amendments at the election to be held Tuesday.

County Clerk J. W. Fields will keep a crew on hand Tuesday night to receive the returns from the judges of the 60 precincts where elections will be held that day. In August the County Commissioners Court created four more precincts and changed the lines of many others but the new arrangement will not become effective until January 1. Voting on the amendments will be carried out under the old precinct set-up.

# Man Dies at Wheel

By United Press  
SAN ANTONIO, Nov. 1. — Estevanado Molina, 52, collapsed and died of an apparent heart attack yesterday at the wheel of his car.

# Grand Jury Hits City Jail System

(Continued from Page One) above, could have existed in our City Jail.

"It is deplorable that alcohol, 'golf-balls' and weapons could have been available to City prisoners. It also occurs to the Grand Jury that if such articles were smuggled into the jail a regular search would have disclosed them. Furthermore, it would appear to be poor security for a jailor to be located so far from the jail tanks as not to be able to hear what was occurring among the prisoners."

"It is the understanding of the Grand Jury that measures to prevent a recurrence of such an incident are being taken in the new jail quarters in the County Court House. It is strongly urged by this Grand Jury that all measures as may be necessary be taken to make our City Jail one of top security where the prisoners will be under constant surveillance and that regular and thorough checks be made of their possessions."

# Russians Claim Giant Airliner

By United Press  
WASHINGTON, Nov. 1. — Russia claimed today to have a giant turbo-prop airliner that can carry 200 passengers at 600 miles an hour.

There is some suspicion the Soviets may have in mind using such a giant for flights to the United States if current American-Russian negotiations produce an agreement for reciprocal air service between the two nations. Russia has suggested such an agreement.

# The Art of Buying a New Car

As some smart buyers know, there is no standard price on a new car. So, how you trade can make a difference of \$500 or more.

Don't miss the fourteen eye-opening facts in November Reader's Digest that may enable you to avoid spending more money than you should on your new car.

Get the November Reader's Digest at newsstands today: 33 informative articles of timely interest—the best from leading magazines and books, condensed to save you time.

Mrs. Sherwin said Tommy came and went at the Patterson home. Other neighbors, questioned on the subject, said they saw Tommy from time to time and knew he was the Patterson cat.

# Gifts to Mamie Made Into Coat

By Associated Press  
WASHINGTON, Nov. 1.—Maine trappers have hung a new fur coat in Mrs. Dwight D. Eisenhower's closet at the White House.

The coat—made from 17 beaver pelts presented by the Maine Trappers Assn.—was exhibited at a special White House session for photographers yesterday.

Officials were careful to point out that Mrs. Eisenhower received only the 17 pelts as a gift. She paid \$385 to have them sewn into a three-quarter model with rolled cuff sleeves, valued at about \$1900.

# Colorful Death Due Sputnik

By United Press  
CAMBRIDGE, Mass., Nov. 1. — The death throes of the Russian satellite, which is five weeks old today, will form what one scientist calls a "blaze of glory" across the sky.

Meteorite expert Dr. John S. Rhinehart said the dying Sputnik will make a "great show," streaking perhaps as far as 3000 miles and trailing light in a great white path.

Rhinehart, an assistant director of the Smithsonian Astrophysical Observatory, said that, under ideal circumstances, thousands may see the death plunge.

And if Sputnik should come down at sunset, "as it very well might," he said, spectacular would be far too mild a word to describe it.

# Coty 'Disgusted' At French Crisis

By United Press  
PARIS, Nov. 1.—Reports circulated in Paris today that President Rene Coty was on the verge of resigning in disgust at the month-old government crisis.

Felix Gaillard was trying to form a cabinet but has run into difficulties because of the fence-sitting tactics of the powerful Socialist Party. He is the fifth man to attempt to end the worst political crisis since the end of the war.

The rumors about Coty were so strong that the Paris leftwing "Express" said he already has drafted a message to the National Assembly deputies warning he will quit unless a government is formed soon.
