

Boom in U. S. Easing Up; Job Drop Seen

What's the job picture across the country? Where do the signs point and what are the trends to watch? The following dispatch tells how forecasters see the next few months — and how employment looks today from coast to coast.—The Editor

By DICKSON PRESTON Scripps-Howard Staff Writer WASHINGTON, Oct. 31.—Economic forecasters expect 1,000,000 additional Americans to be unemployed by next spring. But they point out that this is less than two per cent of the labor force—and that 65,000,000 of us will have jobs.

The forecasters find numerous reasons to agree with President Eisenhower's statement of yesterday that the nation's economy is "taking a breather."

Some see the possibility—unless present trends are reversed — of 5,000,000 jobless by November, 1958. That would double the present total.

Even so, nothing now apparent in the economy points toward a 1929-style nose dive. Rather, the situation is being compared with 1948 and 1953, when declines in business foreshadowed the mild recessions of 1949 and 1954.

A survey of key cities across the country supports this view. From New York to San Francisco, there are "soft spots" almost everywhere: some rise in manufacturing, unemployment, a general feeling that the trend will continue a while.

But—unless you are one of those out of work — there appears no cause for undue alarm. And even those who are losing their jobs still find it relatively easy to get new ones.

Here are the clues from which Government and private economists deduce that more job layoffs are coming:

- 1. Overtime pay has virtually disappeared in many areas. Average factory hours are down from 40.7 a year ago to 40 in September this year. Manufacturers normally cut overtime first, then start lay-offs.
2. Unemployment compensation claims, which normally drop in October, are climbing this year. They also went up in October, 1953, presaging a business slump.
3. Freight car loadings, the professional forecaster's top barometer of business activity, are off nearly 10 per cent from a year ago. It's the sharpest drop since 1954. Construction also is weak.
4. Manufacturers are whittling their inventories, cutting into their (Continued on Page 4, Col. 1)

Texas Rangers Move to Curb Steel Violence

By United Press LONGBVIEW, Oct. 31.—Capt. E. J. Plankers, one of the toughest commanders in the ranks of the Texas Rangers, has taken personal command of the Ranger force trying to end the violence in the Lone Star steel strike. The Longview News-Journal reported today.

News-Journal Publisher Carl Estes wrote in his newspaper that Banks is on his way to Daingerfield, center of the violence. Bombings, shootings and beatings have spread across three or four north-east Texas counties.

The most recent incident was the earth-shaking explosion last night that rocked the town of Lone Star, six miles south of Daingerfield. The blast apparently caused no damage and the place where it was set off was not found.

Rangers believed that this was because it was set off on top of or under the surface of Lone Star Lake and the fragments quickly sank. Strikers were holding a meeting in Lone Star at the time.

Flu Unchanged

By International News Service WASHINGTON, Oct. 31.—The U. S. Health Service reported today that there was "no change" during the last week in the number of cases of Asian flu.

Zhukov Loses Party Posts Too

By United Press LONDON, Oct. 31.—Reliable reports from Moscow said today it now is almost certain that Marshal Georgi Zhukov has been dropped from his Communist Party posts following his release as Soviet defense minister.

An official announcement from Moscow on this may be imminent, the reports said, or it could be delayed for up to several days. But there was no indication this far on Zhukov's new job, which Communist Boss Nikita Khrushchev said Tuesday would correspond to the famed soldier's "experience and qualifications."

Party Decided According to the reliable reports, the Central Committee of the Communist Party, after lengthy debate, decided to drop Zhukov from the 15-member Presidium to which he had been elected only last July. The Presidium is the executive body of the party. Zhukov's ouster presumably would include loss of his Central Committee status. Zhukov's offense apparently was his opposition to increasing party control over the Red Army. He also was getting too powerful for Khrushchev's liking.

Dad Shoots Son

By United Press HOUSTON, Oct. 31.—A 16-year-old boy was too quiet when he returned home late from a football game last night. His father, mistaking him for a burglar, shot him. The boy, Richard Parks, was admitted to Hermann hospital.

Why is it a middle-aged woman won't admit her age and a middle-aged man won't admit his?

Hearing Set On Street Name Change

Council Gets Protest On 33 Proposed Designations

Public hearing on 33 controversial street name change suggestions will be held in City Hall all day Wednesday. The hearings will begin at 9 a. m., run till noon, recess till 2 p. m. and resume until all interested parties have been heard.

Mayor Raymond Telles said the Council had completed study of 205 name changes for El Paso streets and alleys. The list was prepared by the City Planning Department and submitted to the mayor on Aug. 14.

The 33 names which will be discussed in the hearings were protested by residents of affected neighborhoods, the mayor said. The Council has no objection to the remainder of the list, he added.

However, suggestions for changing names of 18 South El Paso alleys were overruled by the Council. Instead of renaming them after persons prominent in Southwestern history—many of whom had Spanish names—the alleys will be named after letters in the alphabet.

Senate Adopts Water Program

By United Press AUSTIN, Oct. 31.—The Senate rejected administration proposals today overwhelmingly adopted a long-range statewide water planning program sharply differing from that proposed by Governor Price Daniel.

Simultaneously, the House beat down an attempt to sidetrack Daniel's water program. Final Senate approval came on a voice vote. However, an earlier test vote showed 23-0 support for the measure.

The bill now goes to the House. After acting on the water measure, the Senate quickly adjourned until 10:30 a. m. Monday. The action threw a road-block in administration hopes for early approval of a lobbyist registration bill, a key measure in Daniel's special session program.

The Senate, by a 25-2 majority, skipped over the lobbyist bill to give prior consideration to the water measure.

Hitler's Nephew Plans Marriage in Juarez

Siegfried Hitler II, who told a Juarez official he is a nephew of the late Adolf Hitler, was waiting today for permission to be married.

The 19-year-old Hitler, a private in Battery D, 168th AAA Battalion, appeared at the Juarez Civil Registry with a 16-year-old Juarez girl, Guadalupe Cardosa.

Judge Jorge de la Fuente said permission for Hitler, an American citizen, to marry a Mexican girl must be obtained from Mexico City.

Out of curiosity the judge asked the soldier about his name. Young Hitler said he is a "blood nephew" of the German dictator.

Ft. Bliss officials said the soldier was born in Baltimore, Puerto Rico, of German parents, but that they have not checked on his relationship to the Nazi leader. He formerly resided in San Francisco where he enlisted.

Hitler and Guadalupe plan to be married at 10 a. m. Saturday if government approval is received.

Paper Building To Be Enlarged

Enlargement of the Newspaper Building has been made possible by purchase of a half-block tract from the Texas and New Orleans Railroad Co. for \$210,000, Dorrance D. Roderick, publisher of the El Paso Times, Inc., said today.

The tract, behind the Newspaper Building, has a 260-foot frontage on Main street. The Times purchase included the area now used for a parking lot and the railroad spur tracks at rear of the buildings on Mills street between Kansas and Campbell streets.

Mr. Roderick said long range plans call for additions on the east of the present Newspaper Building, possibly all the way to Campbell street. Purchase of the tract, he said, was necessary to provide access to the proposed additions.

Plans envision expansion of the composing room, mailing room and business office, and extension of a newsprint storage basement all the way to Campbell.

"The additions to the building program we completed in 1949 are needed because of the growth of the newspapers," Mr. Roderick said. "Present quarters already are outgrown."

The expansion is designed to give better facilities for the Newspaper Printing Corp., The Herald-Post, and the Times.

The newly acquired tract will continue to be operated as a parking lot, with David A. Shaw as lessee.

New Police Chief, Captain Announced

City Council today appointed Howard Jones Chief of Police and H. L. Bonds traffic captain. The appointments, which are effective Wednesday, Nov. 16, are permanent. Both men had been in the same posts on a temporary basis since the retirement of John Risinger.

In his new post, Chief Jones will earn \$704 monthly, and Captain Bonds, \$484.

Did Ailing Ava Get Kicked In a Bull Ring?

By International News Service LONDON, Oct. 31.—Ava Gardner kept her own counsel today as London buzzed over whether she was done in by a bull, a cow or the flu bug.

The film star secluded herself in her hotel suite after arriving from Madrid Tuesday night — an inflamed cheek partly hidden by a scarf.

Seeks to Break Bridge Bottlenecks

City Council today acted to break traffic bottlenecks on the South Stanton street approach to the International Bridge.

Council approved recommendations from Traffic Engineer Joe Nadon which will:

- 1. Prohibit parking on the west side of Stanton between Seventh street and the bridge from 4 until 7 p. m. daily.
2. Prevent left turns by west-bound traffic at Seventh, Eighth, Ninth and Tenth streets between 4 and 7 p. m.
3. Cut out right turns by east-bound traffic at Eighth, Ninth and Tenth streets between 4 and 7 p. m.
4. Create three lanes for South-bound traffic.

Crippled Plane Lands Safely

By United Press LOS ANGELES, Oct. 31.—A United Air Lines DC-7 four-engine plane with 11 passengers and a crew of five today made a successful belly landing at International Airport after circling for two and a half hours with a jammed landing gear.

Fire-preventing foam had been spread on the runway and emergency rescue and fire crews stood by as the plane sithered in.
