Mrs. Penick yesterday announced she would pay \$10 and Mrs. Addie Godlove of 515 Raynolds boulevard said she would pay \$20 for information leading to the whereabouts of the Pattersons. Mrs. Penick said she is convinced the Pattersons were slain. Mrs. Godlove said she has no opinion on what occurred in the strange case, but is willing to join in a reward for information about them.

Sheriff's deputies said the unidentified man who telephoned Mrs. Penick added nothing new in the case. Previous reports have said Mr. Patterson was in a sanitarium, but these reports have not been verified.

WASHINGTON, Oct. 30.-President Elsenhower said today that he does not yet know the fate of his former wartime comrade-in-arms, Soviet Marshal Georgi Zhukov.

The President told his news conference that it is not known whether Zhukov has been degraded by the Kremlin's leaders. He indicated, however, that the

Administration is inclined to accept the evidence that the former Red Army leader, who was relieved of his post as defense minister Saturday, is being removed from influence in the Soviet ruling hierarchy.

Why Not Resignation?

The President observed that one of the Soviet leaders said at a Turkish Embassy reception in Moscow last night that U. S. Defense Secretary Charles E. Wilson had resigned and asked why Zhukov couldn't do the same.

Mr. Eisenhower commented wryly that he hopes that Zhukov's resigning was as completely voluntary as Wilson's.

Bý contrast, Zhukov's removal as Soviet defense minister was announced in a nine-line item on the fourth page of Pravda, the official Russian government newspaper. The announcement said Zhukov was being "relieved" of his post.

Mr. Eisenhower also discussed what he described as the extraordinarily frequent changes in the "committee government" that has ruled Russia since the death of Josef Stalin.

The President said there certainly is some reason for these frequent and extraordinary changes. Secretary of State John Foster

Dulles said yesterday that the ouster of Zhukov appeared to be a manifestation of terrific internal convulsions in Russia's domestic affairs. The President cited the numer-

ous changes in Soviet leadership that have taken place as the result of continuing struggle for power since Stalin's death. He pointed out that Georgi Malenkov, who succeeded to the pre-
